

# trefil

the worn textured surface and detailing of natural flagstones

Made from local natural stone aggregate, hydraulically pressed using the latest automated machinery and production techniques, thereby guaranteeing consistently high standards of accuracy, finish, strength and durability at an amazingly low cost.

Trefil paving is available in three finishes from the basic plain and riven to the block pattern of the Athenia.

Used in extensive areas or in small bursts to highlight small decorative zones, Trefil paving will provide endless variations that will give constant pleasure to any garden small or large.

Plain

Riven

Size mm (nominal)	No. / sq metre
600 x 600 x 38	2.77
